

Mental Health Technician Certification (MHTC) Certification Program Outline

Role of a Mental Health Technician

A Mental Health Technician cares for individuals with mental or emotional conditions or disabilities, following the instructions of physicians or other health practitioners. A Mental Health Technician may monitor patients' physical and emotional well-being and report to medical staff, or participate in rehabilitation and treatment programs, help with personal hygiene, and administer oral or injectable medications.

If you would like to learn more about the role of a Mental Health Technician, please visit the [Bureau of Labor Statistics](#) or the [Occupational Information Network \(O*NET\)](#).
